

Purchase of Additional Detention

The **Purchase of Additional Detention** feature allows you to buy additional detention (DET) even after the vessel's Estimated Time of Arrival (ETA). Previously, additional DET could only be purchased up to one day before ETA. With this enhanced flexibility, you can now secure extra detention time closer to your actual operational needs.

This helps you:

- Respond to last-minute schedule or operational changes
- Avoid higher post-return detention charges
- Better manage and optimize your cost planning
- Maintain greater control over your shipment timeline

Important conditions to note:

1. Eligible Timeframe

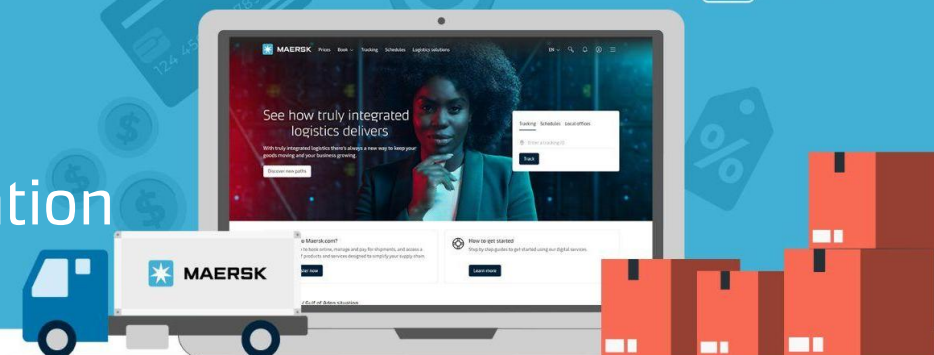

- Additional free time can only be purchased before the original free time expires.
- Once the original free time has ended, the option will no longer be available.

2. Upfront Payment Required

- The purchase must be completed via card payment.
- Additional free time will only be activated after successful payment clearance. If payment fails, the additional free time will not be applied.

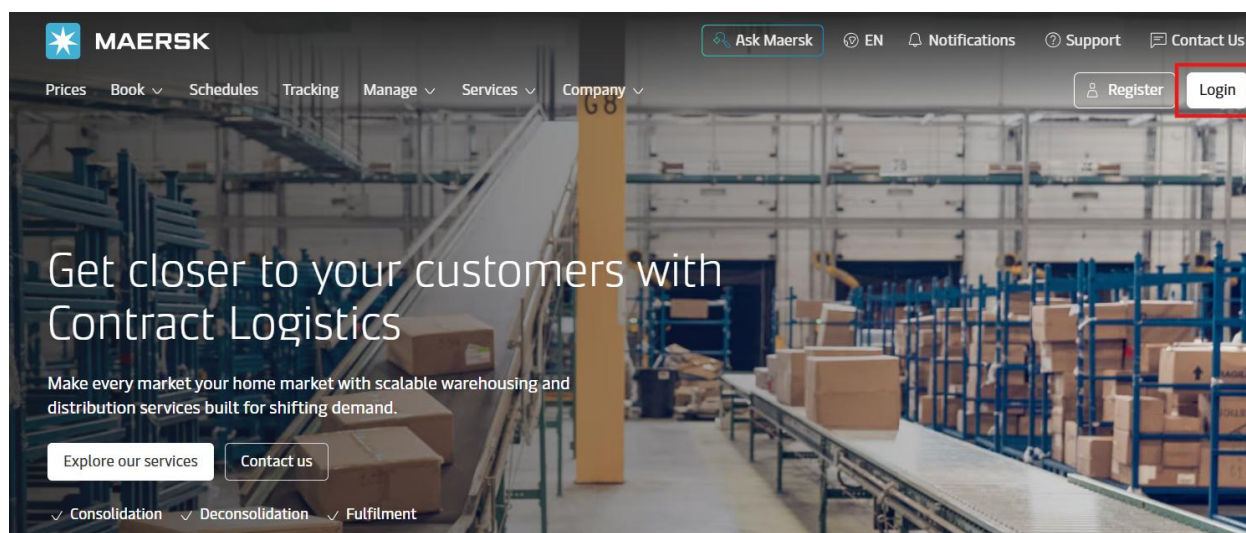

Use this feature whenever additional detention time is required beyond your initial booking.
