

Be ready for a faster cold chain journey in Houston

Leverage our strategically located cold storage facility in Houston and go **all the way** to reach your markets quickly.

MAERSK

ALL THE WAY

Introducing Performance Team, A Maersk Company's new cold storage facility in Houston with a 90-ft-deep dock – **the largest in the industry**. This lets you reach your markets faster by processing higher throughput of both import and export shipments.

Our state-of-the-art, fully convertible facility in Baytown, Texas, is port-centric. It's positioned within **15 minutes** of the city's major ports and **5 minutes** from major highways, with **access** to both BNSF and Union Pacific Rail lines. What's more, we've got enough on-site **truck spots** to keep your supply chain moving efficiently.
