

Carry on
uninterrupted to
Yemen via Oman gateways

Transport your cargo with Maersk through Salalah and Al-Mazyounah free zone hubs to Yemen

With Maersk's end-to-end logistics services, your cargo's journey does not end abruptly at the port after ocean transport. We facilitate a host of inland services, including securing customs clearances, bonded trucking services to Salalah and Al-Mazyounah free zone hubs under carrier haulage. We are also able to support customers by cross stuffing cargo to merchant's trucks for onward movement to Yemen as well as assisting with securing storage at free zones, if needed.

What we offer

Maersk Spot: Experience easy ocean bookings in just a few clicks and get loading guarantee at a fixed, upfront price.

Customs clearances: We provide transit clearances in Salalah and can act as importer/exporter of record for Yemen bound transit cargo.

Value-added services: We can assist customers with a suite of solutions for labour, crane hire, temporary warehousing, and cross stuffing services

Comprehensive trucking network: Customers can leverage our partners' extensive trucking networks to transport cargo from transit hubs all the way to Yemen covering Mukalla, Aden, and Yemen.

Dedicated customer service: Our experienced inland services team are always on call to ensure your cargo is safe and on schedule

Adaptability: Our long legacy with global logistics has prepared us well to deal with unwanted exceptions and uncertainties
